Libros:

Introdução à Química Quântica, Annik Vivier Bunge, Editôra Edgard Blücher, São Paulo, Brasil, 1977.

Red de Química Teórica para Medio Ambiente y Salud, Cristina Iuga y Annik Vivier Bunge, Universidad Autónoma Metropolitana, ISBN 978-607-477-551-8, 2011.

Artículos: (Más de 2858 citas externas, Índice H 30)

1. C. F. Bunge y A. Bunge, *Upper and lower bounds to the eigenvalues of double minimum potentials*, J. Chem. Phys. **43**, S194 (1965).
2. A. Bunge, *A configuration interaction study of the ground state of the carbon atom*, Ph. D. Thesis, publicada como University of Florida Quantum Theory Project Technical Report **135**, (1968).
3. A. Bunge y C. F. Bunge, *Electronic wave functions for atoms. 3. General treatment for first row atoms, open shell simplifications and ground states of C and C²⁺*, Bull. Am. Phys. Soc **14**, 939 (1969).
4. A. Bunge, *Electronic wavefunctions for atoms III. Optimum partition of degenerate spaces and ground state of C*, J. Chem. Phys., **53**, 20 (1970).
5. A. Bunge y C. F. Bunge, *Correlation energy of the ground state of carbon*, Phys. Rev. A **1**, 1599 (1970).
6. C. F. Bunge y A. Bunge, *Eigenfunctions of spin and orbital angular momentum by the projection operator technique*, J. Comput. Phys. **8**, 409 (1971).
7. C. F. Bunge y A. Bunge, *Computer program for the calculation of eigenfunctions of angular momentum*, QCPE181, Indiana University (1971).
8. C. F. Bunge y A. Bunge, *Symmetry eigenfunctions suitable for many-electron theories and calculations. I. Mainly atoms*, Int. J. Quant. Chem. **7**, 927 (1973).
9. L. J. Boucher y A. V. Bunge, *William Lipscomb y los boranos*, Naturaleza **8**, 101 (1977).
10. A. V. Bunge y C. F. Bunge, *Absolute term values for the quartet states of neutral lithium*, Phys. Rev. A **17**, 816 (1978).
11. C. F. Bunge y A. V. Bunge, *CI studies of transition energies and oscillator strengths for the lowest quartet states of neutral lithium*, Phys. Rev. A **17**, 822 (1978).
12. C. F. Bunge y A. V. Bunge, *Calculations of atomic electron affinities*, Int. J. Quant. Chem. **S12**, 345 (1978).
13. A. V. Bunge y C. F. Bunge, *Electron affinity of helium 1s2s triplet S*, Phys. Rev. A **19**, 452 (1979).

14. C. F. Bunge, M. Galán, R. Jáuregui y A. V. Bunge, *Systematic search of excited states of negative ions lying above the ground state of the neutral atom*, Nucl. Instr. y Meth. **202**, 299 (1982).
15. A. V. Bunge, *El concepto de afinidad electrónica*, Contactos **1**, 63 (1983).
16. A. V. Bunge y Manuel Rubio, *Positive identification of photon emission from core-excited quintet states of Be I*, Phys. Rev. A **30**, 1747 (1984).
17. A. V. Bunge y C. F. Bunge, *Improved calculation of the electron affinity of He (1s2s) triplet S*, Phys. Rev. A **30**, 2179 (1984).
